I. INTRODUCTION

II. METHODS

- A. Logistic Regression*
- B. Naive Bayes*
- C. Stochastic Gradient Descent*
- D. K-Nearest Neighbours*
- E. Decision Tree*
- F. Random Forest*
- G. Support Vector Machine*

III. RESULTS

- A. Logistic Regression*
- B. Naive Bayes*
- C. Stochastic Gradient Descent*
- D. K-Nearest Neighbours*
- E. Decision Tree*
- F. Random Forest*
- G. Support Vector Machine*

IV. DISCUSSION
